

## **“SANDPIPER”**

Sandpiper is a gunter-rigged Farrington 25 shoal draft version, having a draft of 3 feet, and was designed by Andrew Wolstenholme and built by Kingsley Farrington in Norwich in 1988.

She is powered by Nanni Twin diesel engine inboard diesel engine mounted in front of the mast.

Sandpiper was purchased in 2013 and underwent a radical internal and external refurbishment which included conversion from 3 berths to two and reconfiguring of both the galley and heads.

RCC handicap is -9%.
